RE: Interim Response 4 to Freedom of Information Act Request: EPA-HQ-2013-009756

Dear Ms. Evans:

This letter is in response to your above-referenced Freedom of Information Act (FOIA) request to the U.S. Environmental Protection Agency (EPA). In this FOIA of September 9, 2013, you requested action plan follow-up records submitted in response to EPA's coal combustion residual impoundment assessment reports. Specifically, you requested action plan follow-up records for 46 named coal-fired electric power plants. In addition, you requested similar records for other power plants not included on the list of 46 facilities, if EPA was in possession of such information.

Please find enclosed one disk (labeled "Disk 5") containing documents responsive to your request. Similar to our earlier interim responses, today's release represents a fourth partial response to your request. Specifically, we are providing records and documents for an additional 16 facilities specifically named in your request.

No.	Company	Facility	State	Disk No.
1	American Electric Power	Philip Sporn Plant	WV	Disk 5
2	Georgia Power	Plant Scherer	GA	Disk 5
3	Georgia Power	Plant Mitchell	GA	Disk 5
4	Georgia Power	Plant Yates	GA	Disk 5
5	Georgia Power	Plant McDonough	GA	Disk 5
6	Georgia Power	Plant Hammond	GA	Disk 5
7	Ameren Energy Resources	Coffeen Power Station	IL	Disk 5
8	Ameren Energy Resources	Duck Creek Power Station	IL	Disk 5
9	Ameren Energy Resources	ED Edwards Power Station	IL	Disk 5
10	Ameren Energy Resources	Meredosia Power Station	IL	Disk 5
11	Ameren Energy Resources	Newton Power Station	IL	Disk 5
12	Ameren Energy Resources	Sioux Power Station	MO	Disk 5
13	Ameren Energy Resources	Rush Island Power Station	MO	Disk 5
14	Ameren Energy Resources	Meramec Power Station	MO	Disk 5
15	Ameren Energy Resources	Labadie Power Station	MO	Disk 5
16	Kentucky Utilities	Green River Power Station	KY	Disk 5

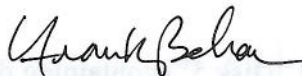

The EPA is releasing these documents in full and is not invoking any FOIA exemption with regard to this information.

For American Electric Power's Philip Sporn Power Plant, the table attached to your FOIA request listed over 20 individual "Report Titles" for this facility. However, the majority of these records are data and information included in appendices to other main reports, such as the report titled "Analysis of Seismic Slope Stability of Fly Ash Pond Eastern Dike, Upper Section, Sporn Fly Ash Pond, Philip Sporn Power Plant, New Haven, West Virginia" dated January 18, 2010. For example, the "Core boring log 96-101" listed on the table attached to your FOIA is included in the main report on pages AEPSPP-000606 thru 000634. A second example is the record titled "Sporn Bottom Ash Pond - classification test data on soil," which is also included in the main report on pages AEPSPP-000636 thru 000749. Instead of providing each record separately, we are providing you the three main reports that contain the requested information. In addition, for this facility you will find two additional records on the CD that are not included in any of the three main reports.

The EPA is in the process of reviewing potentially responsive records and information for the remaining facilities. We plan to make our final release and determination by March 14, 2014.

If you have any questions concerning this release, please contact Stephen Hoffman at (703) 308-8413 or Hoffman.stephen@epa.gov.

Sincerely,

Frank Behan
